The *Odyssey Collection* is our sale-or-return scheme, offering a hand-picked range of approved-used campervans previously owned by our customers. Each vehicle is carefully selected, thoroughly inspected and backed by warranty.

Each *Odyssey* campervan is selected based on:

FAQS

Q: What's the warranty?

A: Every Odyssey campervan is backed by a comprehensive warranty and after-care support. "Approved used" doesn't mean "no support". Every camper comes with a six-month warranty.

Q: How do you guarantee quality?

A: Before hand-over, each vehicle undergoes a full inspection, any necessary refurb or remedial work is done by approved garages or our in-house experts, and we provide full documentation (service history, conversion specs, condition report).

Our in-house team uses the same standards we apply to our brand-new conversions: finish, materials, function. We don't just tick a basic checklist - we treat each one with the same care and creativity as a new build.

Q: Why choose this option rather than new?

A: You get luxury conversion standards and craftsmanship at better value. The "waiting time" often for new build is reduced - these vehicles are ready to go, so you can start your adventure sooner. You also adopt a vehicle with character, history and an established conversion, rather than starting from scratch.

Q: What about financing or buying outright?

A: We offer flexibility: either purchase outright or put finance in place from Autofinance Online.

Q: Can I customise or upgrade?

A: Yes - in many cases. Customisation options depend on the specific vehicle and conversion. We can retrofit a range of upgrades, including wind-out awnings, solar panels and diesel heaters. Our team will be happy to advise on what's possible for your campervan.
